

The Bible Code

Overview

An awesome proof that there is indeed an Infinitely Higher Intelligence (God) in the Universe. For 3,000 years a secret code in the Bible has remained hidden. Now it has been unlocked by computer- and it may reveal our future. The code was broken by a distinguished mathematician, and later corroborated by world-famous academics. It foretells events that happened thousands of years after it was incorporated in The Old Testament- from World War 2 to the Gulf War.

A research team at Hebrew University in Jerusalem, headed by Eliyahu Rips used a Equidistant Letter Sequence (ELS) analysis method to search for **hidden Bible codes** in the Book of Genesis. They found many names, birthdates and death dates imbedded in Genesis of famous Jews who lived thousands of years after the book was written. It proves that **“One stroke of a letter”** (Luke 16:17) in the Bible is preserved. You can check by yourself from **Bible Code Software**.

Galileo said over 400 hundreds years ago that **Mathematics** is the alphabets for which God wrote the Universe.

Introduction

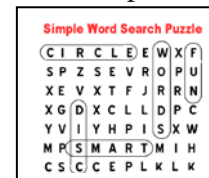

Hebrew Bible contains a very complex code that reveals events that took place thousands of years after the Bible was written. Some foretold events later happened exactly as predicted. Eliyahu Rips published an article entitled “Equidistant Letter Sequences in the Book of Genesis”.

A research team at Hebrew University used ELS method. They found many names, birth dates and death dates imbedded in Genesis of famous Jews who lived millennia after the book was written. Other researchers examined the entire Pentateuch and found descriptions of recent world events and predictions in our future. At first, it appeared as if the codes were a positive proof of biblical inspiration. This belief is still being circulated as such a **“Proof”**. What isn't being reported widely is that other researchers have found similar secret hidden codes in various long pieces of text.

The **Bible code** (**Hebrew**: הַצְּפֹנִן הַתְּנִיכִי *hatzofen hatanachi*), also known as Torah code, is a superficial set of secret messages encoded within the Hebrew text of the Torah.

Simple understanding

Starting from simple word puzzle- We can make/look vertically/horizontally or making diagonal or so.

Looking Equidistant Letter Sequence (ELS). This phenomenon in the Bible has come to be known as ELSS. (Equidistant Letter Skip Sequences). The code is considered to exist only in the Hebrew Bible and not in translations or any other books. The code concept, however, can be easily demonstrated with English characters. Consider the following verse from the King James Version (KJV) of the Book of Genesis: 31:28.

Rosewell, Thomas, an English clergyman, remain minister for 54 years and published few books.

Hundreds of years ago, Jewish scholars studying the Hebrew Scriptures, discovered something remarkable. It’s phenomenon in their holy book that does not occur in any other writing, and that could not have happened by accident. The first word of the Book of Genesis/Bible is “Bereshit” (in the beginning). Starting with the last letter of this word, which is a TAV, they found the Hebrew word Torah spelled out every 50th letter. Now count seven times seven letters, that’s 49 letters, and the 50th letter is VAV. Then again 50th letter is RESH. Further 50th letter is HEH.

TAV VAV RESH HEH spells “Torah”.

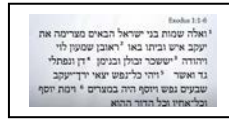

so on, the hidden message “Roswell” is revealed! This message has a step value of 4, as shown in Figure 1.

1 בראשית ברא אלהים את השמים ואת הארץ
2 והארץ היתה תהו ובהו וחשך על־פני תהום
3 ורוח אלהים מרחפת על־פני המים 4 ויאמר
אלהים יהי אור והיִאור 5 ויִבֹּדַל אלהים בין האור ובין
את־האור כִּי־טוֹב ויבֹּדַל אלהים בין האור ובין

והארץ היתה תהו ובהו וחשך על־פני תהום
ויהי אור ויאמר אלהים יהי אור והיִאור
ויבדל אלהים בין האור ובין את־האור
כי־טוֹב ויבֹּדַל אלהים בין האור ובין החשך
ויקרא אלהים לאור יום ולחשך
תורה

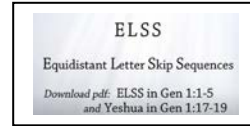

Again in Exodus they found same phenomenon.

This looks like a design.

In the third book of the Bible Leviticus, we find the word “Lord”. Counting 7 letters and then 8th letter and again the 8th letter and so on we find- YUD HEH VAV HEH is a hint of the name of Jesus. Then again in Numbers we find “Torah”.

It’s not mysticism/theology. It’s fact. You can check it by yourself by downloading PDF form from the website- www.thelivingword.org.au It proves His hand of design.

The early findings are exiting, but now in the computer age, we are discovering that there are much more encoded, so to speak, in the Hebrew Scriptures.

Yeshua is the Hebrew name for Jesus. Yeshua or Jesus in Hebrew means Yahweh is our salvation.

Underneath the Hebrew text God placed significant name and places that shows prophetic writings. “All Scripture is inspired by God and is useful to teach us what is true and to make us realize what is wrong in our lives.” (2 Timothy 3:16)

The 66 books and 40 authors over 1600 years of period recorded this Word of God. How Word of God is different from other literature? It is because God is the author of the Bible.

“Christ died for our sins according to the Scriptures, and that He was buried, and that He rose again the third day according to the Scriptures.” (1 Corinthians 15:3-4)

If you go to Jerusalem today you will find that empty tomb!

In 66 Books written by 40 Authors, the theme is same, the focus is the same, all points to one person Jesus Christ. When we read, we find the unity of the message written by the power of the Holy Spirit. Bible is Word of God (not contains the Word of God) and without error. If we read Bible without anointing of the Holy Spirit—it is just like a book and interesting book but not a book that changes life. We must have truth of the Word of not just knowledge of the Word. Truth is a person that person is Jesus. Faith is mixed with our belief and it comes alive.

“If you confess with your lips that Jesus is the Lord and believe in your heart that God raised him from the dead, you will be saved.” (Romans 10:9)

Astonishingly we find Bible’s 40 Author’s names, place of birth and date of birth.

Amazingly we find the name of Martyn Lewis who was BBC’s news reporter for Gulf War (2 August 1990).

To mention also the events of 1st World War and 2nd World War.

One of the remarkable things is that we find events/names/etc. of past—not future events.
